## Helping your business thrive and prosper

In a digital world, consumers place a high value on mail. We believe in the power of one-to-one communications to build customer relationships. Technology has transformed communications, but the core strengths of mail have endured and in some cases grown even stronger. Mail helps you connect with your customers and attract new customers in a way that few other channels can, especially when combined with digital.
Royal Mail is the UK's designated Universal Postal Service Provider, supporting customers, businesses and communities across the country. We are the only company that has the capability to deliver a 'one-price-goes-anywhere', six-days-a-week service on a range of letters and parcels to more than 31 million addresses across the UK.

For businesses and organisations which use mail as an integral part of their communications plans, Royal Mail has a number of options available for you to choose from. The final price for your mailing will depend on a number of choices that you make, and this price guide is intended to give you an overview of the options. Should you need any further details please see the appropriate product guide at royalmail.com

## What is the content of your mailing?

Advertising Mail
Mailings which comprise a largely uniform message to all addressees, with the purpose of promoting the sale or use of products or services, or to encourage contribution to, or support of, a cause.

Subscription and Publishing Mail A service for periodicals such as newsletters, journals and magazines (but not brochures, catalogues, directories and exhibition guides). Before customers can use the service we need to verify that items meet our qualifying criteria. At least one-sixth of the periodical must be editorial content.

Business Mail
Typically contain general correspondence and items of a personalised nature for transactional, contractual or relationship purposes. Generally they are for mailings that do not qualify for Advertising Mail, or Publishing Mail. Goods cannot be sent in Business Mail - please use one of our Parcels products.

## How much does it weigh?

Typically we have a single price for $0-100 \mathrm{~g}$, another for $101-250 \mathrm{~g}$, then above 250 g a mix of 250 g increments or an additional price per gram, depending on the service.

Parcel formats for Advertising Mail and Publishing Mail are no longer available from April 2023.
Please visit royalmail.com/current-postageprices for information on our parcel products.

## How quickly do you want it delivered?

| 1st Class | The working day after collection |
| :--- | :--- |
| 2nd Class | $2-3$ working days after collection |
| Economy | 6 working days after collection |

## Are you able to pre-sort the mailing into separate containers, depending on the destination?

We then pass on the cost saving to you. Most of our customers who use this facility use the services of a Mailing House to realise this potential. Should you need any support in making this happen please visit royalmail.com

Unsorted is where you just give us the mail as it is.
Low Sort is where we ask you to sort to Mail Centre level (C. 86 selections) for Mailmark mail that can be processed through our letter sorting equipment and Manual that cannot be processed through our letter sorting equipment.

## Your Mailing Options

## Can the items be processed by our Sortation and Sequencing equipment? (Machine Readability)

MailMark ${ }^{\circ}$ is the new-style barcode which is able to direct and track individual items through the network up to the point where they are ready for delivery.

Advanced - applying a barcode and the right address font, and making sure that certain areas of the envelope are clear from text or artwork, helps us to direct items through the network through to delivery.

Manual - sorted mail that is not machine readable.
Address Quality - items that are carefully and accurately addressed will give better performance and help achieve lower prices.

Again, many customers make use of third-party providers to realise the savings that are achievable here. Give us a call and we can point you in the right direction.

## What containers are you presenting the mail in?

We have migrated much of our internal movement of mail into trays rather then bags to drive efficiency, and now offer customers for our pre-sorted products a preferential rate if you can do the same. Trays protect your mail from damage.

## What is your mailing volume?

If your daily volumes (per speed and format) reach certain threshold levels you will get additional discounts.

## How do you access these services?

Access to the services in this price guide is via a Royal Mail Online Business Account, which is our online ordering and invoicing system. It allows you to order mail services and manage your Royal Mail invoices quickly and simply in one place. For more information go to: royalmail.com/oba

## Know Your Formats

Prices for 1st Class and 2nd Class mail are the same no matter where you're sending mail to in the UK. The amount you pay depends simply on the size and weight of the item you're sending.
Here are the formats we use to determine the postage. Each format has its own size and weight limits. The illustrations below will help you work out which format your item is.

## Calculating the Price of Your Mailing

Prices in this guide for Letters and Large Letters now include the sortation, machinereadable and Volume Related Discounts (VRD)*, where applicable, and does not need to be calculated separately.

This means the calculation has been simplified for Large Letter sorted options from 251 grams up to 750 grams.

## Calculating the price of your mailing

 Step 1:If the item is Large Letter format and weighs up to 250 g , all prices are shown. Move to Step 2.

If the item is Large Letter format and weighs more than 250 g (above 1000 g for Parcels), then an incremental price should be added to the base price based on the exact weight of the item.

Find the base price and per-gram increment price from the appropriate table in this price guide.

The incremental price is calculated as the incremental weight in grams above 250 g (above 1000 g for Parcels) multiplied by the gram price increment. The result is rounded to the nearest 1/10th of a penny.

## Step 2

Multiply the item price by the number of items to calculate the individual transaction value.

Step 3
Apply any Trayed Mail savings.
Apply VAT as appropriate (and MASBOF/JICMAIL levies if Advertising Mail).

## Worked example

Advertising Mail has been used for this worked example, but the principal applied to all products..

An Advertising Mail Manual Low Sort 2nd Class option posting of 102,000 Large Letters weighing 302g each.

Step 1
The base price for Manual Low Sort Advertising Mail $=66.0 p+(302 g-250 g) \times 0.1178 p=72.1256 p$ rounded to the nearest $1 / 10$ th of a Penny $=72.1 \mathrm{p}$

Step 2
Total for this mailing $=(72.1 p \times 102,000)$
= £73,542.00
Step 3
Manual Low Sort Large Letter mailings presented in trays will save 2.00p per item
$=(2.00 \mathrm{p} \times 102,000) / 100=£ 2,040.00$
Total tray price of mailing $=£ 73,542.00-£ 2,040.00$ = £71,502.00
(Excluding VAT, MASBOF levy \& JICMAIL levy).

## Volume Related Discounts

## Aggregating volumes on Direct selections to achieve and maximise Volume Related Discounts

In order to reach the Volume Related Discount (VRD) threshold on any given posting day, and to maximise the level of VRD obtainable, you can aggregate volumes on direct selections in two ways:

1. You can combine a number of the same product or service level mailings on one confirmed sales order. You will need to show in the comments field all the job reference numbers or part jobs included on that confirmed sales order. If you do this and then have multiple entries on a single confirmed sales order, you must link the individual lines with the appropriate Customer Reference Number (CRN) to maximise your Volume Related Discount.
2. If you are unable to show all mailings for one day on a single confirmed sales order (usually because mailings are at different times) you must put the same Customer Reference Number (CRN) on each confirmed sales order and against each multiple entry. It is not possible to aggregate different sales orders posted on the same day for any unsorted products (Business Mail, Advertising Mail and Business Mail Advanced option).

Any applicable VRDs are calculated at the time you confirm your sales order and will be reflected on the invoice for that date of posting. Any VRDs will be a credit on your account overnight (or a debit if any associated adjustments are made).

## Response Services

## Business Reply and Freepost

Business Reply and Freepost enable your customers to respond easily and cost-free to your outbound communications.

To get our lowest price, simply provide your customers with a pre-printed, machine-readable envelope, typically used for many financial transactions and customer orders. This is our PLUS option and is available for Letter format only.

If you want the flexibility of different sizes and weights to come back, then our STANDARD service covers all options.

Finally, if you want your customers to provide the envelope, and simply handwrite the return address, then FREEPOST NAME is ideal, as they only need to remember the name, not a postal address. Great if you are using broadcast media or off the page.
To get more detail on any of these options please visit royalmail.com/responseservices
